### OFFICIAL RULES THE gTOON CARDS

CLICK ON THE NEXT BUTTON TO CONTINUE NEXT

gToons is an online trading card game for two players. A player typically wins by having the higher number of points. However, if a player has more cards in each of the two target colors determined at the start of the game, he or she automatically wins regardless of point totals.

At the start of a game, each player will choose one deck of gToon cards from his or her online collection. These cards represent shows, characters and other elements from Cartoon Network cartoons. Each player's deck consists of 12 cards. Each gToon card has three key aspects that affect play: color, points and power.

#### COLOR

gToon cards come in six basic colors: red, orange, yellow, green, blue and purple. There are also special cards with black borders and silver borders. Black-bordered cards do not count toward any color total. Silver-bordered cards, however, are a key element to color strategy. At the end of round 2, before each player's final card is revealed, players can assign a color to any silver gToons they have played. Once a color is chosen, all silver cards will change to that color. If no color is selected, they will remain silver.
