OFFICIAL RULES AFTER THE GAME

◀ PREV NEXT ▶

When the gToons game ends, a screen will announce your win or loss, as well as whether the game was decided by color or points. This outcome will then be factored into your rating, which in turn determines your rank.

RANK VS. RATING

Your rank tells you where you stand in relation to all other gToons players. This rank is based on your rating as determined by the computer. The computer takes into account your win/loss record, along with the ranks of your opponents and the strengths of their gToons decks versus yours, then automatically calculates these factors into your rating.

In order to move up the ranks, you must increase your rating. The best way to do this is by defeating opponents close to you in rank. Because the outcome of such games will have a more immediate impact on both players' ratings, your rank is more likely to change. If you consistently play opponents ranked much higher or much lower than you, your rating won't be affected as greatly, and thus your rank will likely stay the same.

TIE GAMES, FORFEITS AND CANCELED GAMES

If a game ends in a tie, it will not change either player's rank or rating.
