◀ PREV NEXT ▶

OTHER gTOON CARD ATTRIBUTES

gTOON NAME: The name of that specific gToon (e.g. Sand Castle Mojo)

CHARACTER: Along with the specific gToon name, a gToon card is identified by the character pictured on it.

GROUP: Some gToon characters are associated with specific groups. For example, Superman belongs to the "Justice League" group and Scooby-Doo is part of "Mystery, Inc." These groups come into play when a gToon power is activated during the game.

TYPE: There are several types of gToons, such as "Hero" or "Monster," each identified by icons under the character image. Like the "Group" attribute, a gToon card's type comes into play when a gToon power is activated. Some gToon cards may be assigned more than one type (such as "Male/Villain").
