ROUND 2:

1. Play three cards. (Although you see these cards face-up as you play them, they will appear face-down to your opponent.)
2. Reveal the first two of the final three cards.
3. Swap option: Before the final cards are revealed, each player has the option to swap out his or her final card. For a cost of -10 points, you can replace your final card with one from your hand.

4. Color choice: If you have played any silver gToons, you can choose a color for them to become. Once you do, all of your silver gToons will change to that color. If no color is selected, they will remain silver.

5. Final cards are revealed and the computer determines the winner either by target colors or by total points.
